

Session 2a – Clinical leadership

Facilitators: Dr Jim Gardner and Dr Ian Leonard

Leadership Challenges

1. Education
 - Leadership forum - clinically focused and patient centred
 - For ALL_workforce
 - Public education on screening/ identification
2. Promote professionalism.
3. Commissioning support – take the opportunities
4. Increased communication.
5. Equality – Asset based thinking.
6. Standard setting Versus local ownership – to achieve outcomes

Key Issues to consider

- Standards – do we progress to gold standard
- End of life care.
- Flexibility
- Increase diagnosis and recognition in particular in community settings.
- Local ownership of resources available
- Increased screening – in surgery? by post?
- BwD process map: identify issue – bottle neck at diagnosis – services.
- Screening – in surgery or by post?
- Decrease bureaucracy
- Address bottlenecks in services such as diagnosis
